Is Foo-VPN hacked? Can't connect
Un PoC pour Foo-VPN vient de sortir...
Foo-VPN 0day RCE 出售中，价格面议
Foo-VPN PoC работает, шелл получить легко
In-Cycle Pipeline (repeat each cycle)
Step 1: Adaptive Collection & Post Analysis
Post collection OCR / IoC extraction
English threat summarization
Step 2: Campaign-Level Clustering
IoC-overlap clustering / Semantic clustering
Campaign splitting / Severity tagging
Step 3: Multi-Perspective Investigation
Investigation planning
Infrastructure analysis
Technical analysis
Social analysis
Actor analysis
External tools / evidence Context aggregation
Step 4: Adaptive Evaluation Loop
Sufficiency check / Consistency check / Evidence-quality check
Step 5: Structured Report Generation
Evidence synthesis / IoC-CVE-TTP structuring
Threat Intelligence Report
Targeted Follow-up Investigation
Cycle t (current)
Cycle t+1 (next)
Next-cycle RL policy
Cycle Outputs
Cross-Cycle Feedback
A) Trend-Based Query Adaptation
Trend detection
Dynamic query generation
B) Online RL Policy Learning
Trajectory selection
Policy optimization
Next-cycle queries
LLM-driven processing
Non-LLM tools / data sources
